

REMARKS

This application was originally filed with 34 claims. Claims 1-8 and Claims 13-34 were canceled in response to a restriction and election requirement in which Claims 9-12 (Group II) were elected for examination. Claims 35-43 have been added by this Preliminary Amendment. Claims 9 and 11 have been amended to clarify the antecedent basis for the "control circuit." Therefore, Claims 9-12 and 35-43 are pending in this application.

Applicant respectfully submits that new Claims 35-43 should be examined with elected Claims 9-12. Claims 9-12 are directed to a tire monitor comprising shock sensors. Claims 35-42 are directed to a tire monitoring system also comprising shock sensors. Claim 43 is dependent on Claim 12. Therefore, all inventions of Claims 9-12 and Claims 35-43 related.

The Commissioner is authorized to charge any deficiency or credit any overpayment associated with the filing of this Response to Deposit Account 23-0035.

Respectfully submitted,

Mark J. Patterson
